

*I am delighted to have the opportunity to sing the praises of Dr. Drucker, and of my dental care by him. As a senior citizen who spent most of her life in fear of every visit to the dentist, and who had terrible problems with teeth and gums (never brushed my teeth without having them bleed), both my mouth and attitude have done a complete turnaround. About 15 years ago my daughter introduced me to Dr. Drucker. Following his care and instructions ALL my teeth and gum problems were eliminated, and I actually look forward to my appointments. I am always taken on time, even fit in quickly for my one emergency call, treated professionally, painlessly and cheerfully. I have enthusiastically recommended him to others and would heartily recommend him to everyone.*

*With appreciation and affection,*

*S.R., Havertown, PA*
